MULTI-FUNCTION 8-1/2" LONG NOSE

• This plier offer greater functionality than a standard tool
• Features oversized contour grips, spring-loaded mechanism and locking handles • Conviently strip wires and crimps too
• Induction hardened cutting edges for precision and long life
• Professional grade forged CR-V construction with gripping teeth for use as a wrench

15" EXTRA-WIDE FOLDING STEP STOOL

• Heavy duty polystyrene is impact resistant and easy to clean for long life • Compact design folds up neat to save space for storage most anywhere
• Super strong load capacity supports up to 300 lbs
• Platform has slip resistant tread pattern
• Rubber foot pads provide grip

12V / 6V BATTERY MAINTAINER

• **Output Current ~ 1.5 Amp (6V or 12V) Automatic**
Excellent for keeping stored batteries fully charged. Features Auto Voltage Detection, Float Mode monitoring and LED charge status indicators. Includes quick-connect ring terminal harness. Compatible with standard lead acid, Gel and AGM batteries. Dimensions: 3.5″ × 7.25″ × 5.25″

6 / 12 / 24V Battery / Alternator Tester & Voltmeter

DSR # BT55
$33.99

Accurate, easy-to-read digital LCD screen and (2) LED indicators allows you to tests the battery state of charge and 12V charging system output. Checks 6/12/24 Volt SLI & VRLA / AGM / GEL batteries. Features reverse polarity protection, over-voltage protection and has open circuit voltage table on the front of the tester.

12V Handheld Digital Battery Tester

DSR # BT175
$79.99

This quick and easy tester, checks the battery, starting, and charging systems of your vehicle. The (4) LED indicators clearly display battery status while the LCD interface guides you through the testing process and shows voltage and CCA. Check a variety of batteries from 100 to 1200 CCA with voltage of 7V-15V. Safe for 12V SLI and VRLA / AGM / GEL batteries.

2250 Peak Amp Vehicle Jump Starter with Dual AC Outlets

12V

This unit is unique because it has an internal 400W inverter with (2) 120 volt AC outlets on the backside of the unit. Perfect for operating small appliances when electrical outlets can't be found, like when camping and tailgating.

- **525 Cranking amps (12V)**
- **350 Cold Cranking amps (12V)**

Features: built-in 2.1-amp USB port & 12-Volt DC power outlet to charge or power electronics equipment. Uses a 2A external automatic charger. Reverse polarity alarm alerts you if your jump starter is connected incorrectly. Dimensions: 13.83″ × 10.33″ × 19.71″

• (10) of each of the following sizes: ATO 15A, 20A, 25A, 30A, MINI 15A, 20A, 25A, 30A, (1) Fuse puller / tester

LIT # 094422 ..... $59.99

285 Pc. Multi-Use Electrical Repair Kit

• This double-sided kit has compartments on both sides for easy assess to the following contents:
• **Electrical tools include:** crimping tool, Phillips and flat tip screwdriver, circuit tester, test leads, and fuse puller.
• **Electrical parts include:** ring, spade, butt, disconnect and coupler terminals ends, heat shrink tubing, quick tap, wire nuts, cable ties, wire/cable clamps, blade fuses, glass fuses, rubber grommets, electrical tape and primary wire.

PRT # W5207 .....$38.99

Fuse Pick & Terminal Cleaner Set

• These double-ended tools combine a tweezer type puller for removing the blade fuse from the fuse box. Made from nylon plastic for strength and durability.
• Flip it around and you have an slight abrasive insertion head to clean the female contact points of the circuit without damage.

LIS # 55040..... $12.49

10 Pc. Multi-Color Jump Leads

• 22ga wire has double ended insulated alligator clips that provide a quick and easy jump connection for low voltage electric circuits.
• Includes (2) of the following colors: green, yellow, red, white, and black. Measures approximately 21" length.

PRT # W2936 ..... $4.49

85 Watt Soldering Gun Kit

• This UL listed pistol type soldering gun is rated at 85 watts of power and heats instantly.
• Features nickel-plated copper secondary, heat-resistant thermoplastic housing and pre-focused light that illuminates work area.
Includes: heat gun, extra tip, coil of solder.

PRT # W2019A..... $22.49

Electrical Connector Separator

• Works on Weather Pack & other automotive style electrical connectors.
• Measures about 7-1/2" long and has a non-slip handle that is double-ended to fit different access angles. Engage the tool tip behind the connector clip then push or pull to disconnect.

LIS # 13120 ..... $8.99

LIS # 20750
$23.49

Remote Starter Switch

• Allows a single person to start or crank the engine from under the hood.
• Ideal for compression tests or bumping engine onto TDC (top dead center) Assist in finding timing marks for valve, distributor or camshaft adjustment.

Magnetic Soldering Clamp

• Offers an extra pair of hands.
• Alligator clamps are designed to attach and hold wires in a multiple of different configurations while soldering. Clips and base are magnetic and can be used separately.
• Base is hex-shaped to fit into a vise when needed.

LIS # 55000..... $16.99

43 Pc. Multi-Colored Thin Wall & Dual Wall Heat Shrink Kit

• Includes 6" length of polyolefin tubes with 3-to-1 shrink ratio.
• Kit covers 20-1 AWG w/ handy storage tray.

SWC # HST1A $49.99

106 Pc. ~ Weatherproof Heat Shrink Assortment

• Adhesive lined inner wall seals out moisture. 3-to-1 shrink ratio. Sizes include: 1/8", 3/16", 1/4", 5/16", 3/8", 1/2" in a handy storage case.

PRT # W541..... $24.99

1" Wide Self Fusing Silicone Tape

- ***Insulates to 400V per mil***
- ***700 psi tensile strength***
- ***Stretches 300%***

• Contains no adhesives; yet when stretched and wrapped around an object it chemically bonds to itself permanently. Provides for an airtight, waterproof seal in seconds.
• Can be used to insulate electrical wiring and connections, make emergency repairs to fuel and water leaks and much more.

VER # 82110 .....$7.49

171 Pc. ~ Heat Shrink Assortment

• Provides protection and insulation for solder connections and components. 2-to-1 shrink ratio with flame or heat gun.
• Includes various diameters and lengths from 1-3/16" to 39-3/8". Two-tier storage case for great organization.

PRT # W540 .....$13.49

Liquid Electrical Tape

• Weatherproof quick drying black coating for wiring and electrical connections where a roll tape or shrink tubing can't get to.
• Goes on as a liquid and dries to a vinyl polymer.
• 4 oz. brush-top applicator lid

LOC # 85120..... $9.99

Scotch 33+ Super Vinyl Electrical Tape

• 3/4" x 66 ft

MMM #06132..... $10.79

PENCIL TYPE SOLDERING IRONS

Efficient Mica insulated, ni-chrome heating element provides stable tip temperature and long element life.

25 Watt.....FRN # 59020.....$13.49
Maximum tip temperature 680° F (360° C).

30 Watt.....FRN # 59021.....$11.99
Maximum tip temperature 734° F (390° C).

FRN # 61545

Self-Igniting Trigger Torch

• Instant ON/OFF trigger igniter with lock button keeps torch lit for simple one-handed operation.
• Features adjustable flame control knob. Can be used with Propane and Mapp® gas.

2-Speed Dual Temp Heat Gun

• Features: dual temperature control switch (572° & 932°) to meet all of your project needs.
• Has lightweight pistol grip double insulated housing. Includes 6' power cord and hang ring for convenient storage.

PRT # W50076 ..... $23.99

14.1 oz. ~ Propane Fuel Cylinder

BOM # TX9
$10.99

Propane Heat Gun/Torch Kit

• This torch head connects to a disposable propane cylinder (not included) and has automatic ignition and a nozzle guard.
• Adjustable heat output from 842°F to 1,022°F for various applications. A rotating stand stabilizes torch with the head in the vertical position for hands-free use.
• **Includes:** (1) spreader nozzle for larger area coverage & (1) deflector nozzle.

TTN # 51886 .....$84.99

Self Adjusting Stripper/Cutter/Crimper Tool

This yellow handle multi-function tool:
• Strips & Cuts: 10-24 AW copper or aluminum wire,
• Crimps: 10-22 AWG insulated, 4-22 AWG non-insulated terminals, plus 7-9mm ignition terminals.
• No more trying to find the proper little hole to get a good strip. Just insert your wire and squeeze.

TTN # 11475 ..... **$26.99**

Self Adjusting Parrot Head Wire Stripper

• Automatically adjusts to correct wire size. Strip and cuts solid or stranded 12-22 gauge wire. Adjustment dial allows for correct blade pressure depending on thickness of insulation.

TTN # 11469 .....**$16.49**

68220 SELF-ADJUSTING WIRE STRIPPER

Automatically Adjusts to Strip Insulation from 10 - 24 Gauge Wire.

Just insert your wire and squeeze. Hardened steel jaws will automatically adjust and grip even the smallest wire using the adjustable micro gripper force knob. Has a built-in wire cutter near the pivot point between the handles. Crimps: 10-22 AWG insulated, 4-22 AWG non-insulated terminals, plus 7-9mm ignition terminals. Rubber-handles greatly increase comfort and reduce hand fatigue.

$24.99

68250 MULTI-FUNCTION WIRE TOOL

Cuts and Strips Insulation from 14 - 24 Gauge Wires.

Strips and removes wire insulation. Crimp insulated and bare wires. Plus the gripping nose works well to pull, hold, twist, and bend wire ends. Blades and teeth are heat treated and CNC machined for precision, clean smooth cuts on copper, aluminium and automotive wires. Works well in tight spots.

$31.99

68280 WIRE TOOL FOR 8 - 14 GAUGE WIRE

$31.99

CHANNEL LOCK®

9" Cable Cutter

Precision made from high carbon, drop forged steel. Features heat treated and closely mated cutters that cuts up to 4/0 aluminum and 2/0 soft copper (but not designed for steel or ACSR cable). Channellock blue comfort grips provide better leverage and extra comfort.

CNL # 911..... **$29.69**

Crimping & Cutting Tool

Crimps both insulated and non-insulated solderless connections and terminals. The slim nose shape increase your accessibility into tight places. Has laser heat-treated cutting edges that can cut 10-22 AWG wire. Made from high-carbon C1080 steel with Channellock blue comfort grips for better leverage and less fatigue.

CNL # 909 ..... **$24.49**

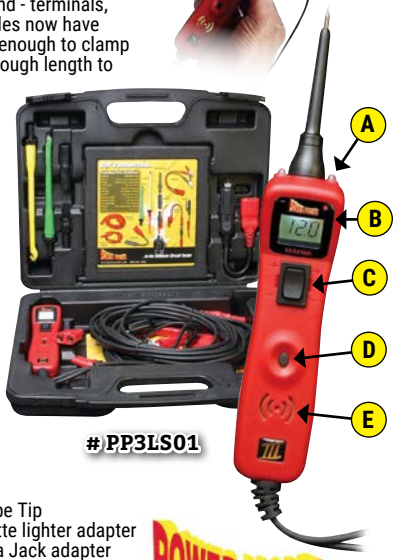

12V-24V ~ POWER PROBE III

Makes diagnosing electrical problems and testing wires so much faster and more efficient. Being able to power components from the probe. It's what makes this device unique and AWESOME.

• The PP3 is a Voltmeter & Continuity Tester, with audible & visual indicators along with two LED headlights to light up your work area.
• **No longer have to find a good ground before testing wires**. The PP3 just hooks up straight to battery + and - terminals, or to the vehicle cigarette lighter, since vehicles now have plastic everywhere. Has a lead which is long enough to clamp to the battery under the hood while having enough length to reach the trunk/bed of an average vehicle.
• **Audible & Visual signals for + or - readings** means you are able to read the tests without actually having to look at the screen while trying to turn a key or press a button on the car makes it easier and less of a circus act.
• **Have the ability to** record "highs" & "lows"
• **Able to power** components from the probe.
• **2 Year warranty** and lifetime technical support.

Features: (A) Dual LED lights that acts as a flashlight, **(B)** LCD Display, **(C)** Power Switch, **(D)** Mode Button, **(E)** Speaker

MASTER COMBO SET
Circuit Tester & Test Leads

SET INCLUDES:
• Stack-able 1', 3', 6' extension leads that, when added to the tool's 20' cable will allow you to reach about any part of a vehicle.
• (2) self centering piercing probes
• Alligator Clip adapter
• 4mm Male & Female adapters
• 3" Probe Tip
• Cigarette lighter adapter
• Banana Jack adapter

28800 DIGITAL TEST LIGHT WITH LOAD TESTER

Dual Polarity Digital Test Light that Can Also Apply Load to Get an Instant Voltage Drop Reading.

A 3V to 30V Dual Polarity test light that is an all-in-one-tool that when you push the button on the tool it applies an 800mA load at 12V DC to easily check for voltage drop on circuits. A drop of more than 3V could indicate a problem with the circuit. Works as a regular test light with a digital readout PLUS a Green light that indicates negative and Red light for positive. Features an insulated probe and 48" cord. Not computer safe with load applied. Not for use on airbags.

Lisle®

$97.99

24550 COMPUTER SAFE CIRCUIT TESTER

Lisle®

Also Indicates Polarity

This tester draws less than 21mA @ 12V making it excellent for working on sensitive electronic components including automotive computers. Has an operating range from 3 to 28 volts. Visual color-coded light in the handle indicates polarity (red = positive current green = negative current).

$14.99

SMART Test Light

INNOVA®

• Designed to safely check voltage and/or ground on electronic systems, including wiring, fuses, battery, cabling, sensors, switches, and more.
• The unique ergonomic transparent handle shows colored LEDs to identify the type of connection:

WHITE = proper connection to source
RED = voltage
GREEN = ground present

Includes: 6-foot lead with cigarette lighter/power plug and detachable twin alligator clamps.

EQU # 3420
$21.99

100 Amp ~ Battery Load Tester

• Designed to tests three aspects of battery health: battery voltage test, 15-second battery-load test and and alternator health. Works on both 6V and 12 volt batteries.
• Features an easy-to-read color coded meter and rust-resistant copper clamps.

PRT # W2988..... **$32.99**

FLUKE

True-RMS Auto Ranging Digital Multimeter

FLU115
$374.99

This compact, user friendly meter is perfect for field service technicians and wide variety of electrical and electronic testing applications. Has features such as the True RMS, auto-ranging, auto hold, auto shut off, and audible warning.

DISPLAYS: True-RMS voltage and current readings with 6000 count resolution that updates 4 per second and includes a responsive bar graph underneath. Performs various functions like testing diode frequency, continuity and capacitance and provides Min/Max/Average readings to record signal fluctuations. Even provides accurate measurements on non-linear loads. Tested for safe use in CAT III 600 Volt environments. The automatic hold feature will help you save the reading at that moment. A white LED backlight aids viewing in poorly lit areas.

INCLUDES: Holster, installed 9V battery, (#TL75) 4mm silicone test lead set, and instructional user manual.

- DC millivolts
- DC volts
- DC amps
- Auto volts
- AC millivolts (True RMS)
- AC volts (True RMS)
- AC amps True RMS (45 Hz to 500Hz)
- Continuity
- Ohms
- Diode test
- Capacitance
- Lo-Z capacitance
- Hz (V or A input)

20 Pc. Back Probe Lead Set

No need to disconnect or unplug the wiring harness terminals and connectors anymore. Set contains (15) total color-coded stainless steel, probe pins in 3 pin configurations: straight, 45° and 90° to meet your various testing needs. Also includes (5) matching colored 12" Banana Plug to Alligator Clip extension leads & portable storage box.

PRT # W2938 ..... $20.49

82600 CAT III ~ TRUE RMS DIGITAL MULTIMETER

13 Functions Including Temperature Range.

Has large, easy-to-read LCD Display with backlight for low light situations. Manual or auto shutdown after 15 minutes of inactivity.

MEASURES:

- AC/DC voltage/current up to 600V & 10A
- Resistance
- Frequency
- Capacitance
- Diode test
- Duty cycle
- Transistor test
- Temperature (-40° to 1000°C)

Orange buttons for Max/Min value, ranges and control the LED built-in flashlight.

INCLUDES: Protective rubberized overmolded guard, back stand, temperature sensor lead, test leads and AAA batteries.

$48.99

Digital Multimeter Tester

- Packs a lot of testing features into one small meter that won't take up much space in your toolbox.
- Accurately measure AC and DC voltage, DC current, and resistance, plus they perform a variety of transistor and diode tests. Features easy-to-read digital display, a pair of test leads, low battery, over range indicators and 9V battery and detailed operating instructions.

PRT # W2974..... $8.49

This tool is know for its accuracy and precision. The liquid crystal display (LCD) accurately indicates readings such as battery level and grease flow (grams or ounces). In addition, the flow meter detects the loss of prime, eliminating false readings to help ensure the equipment being serviced is properly lubricated. The Lithium Ion battery pack provides more capacity with no memory and virtually no self-discharge for maximum productivity and less downtime. Other features include:

- **Two-Speed Digital Grease Output Selector** - switch from low-volume to high-volume dispensing with the touch of a button.
- **High-Torque Motor** - develops pressure up to 10,000 psi. in both high-and low-output settings. The new design reduces battery load and maximizes grease output per charge
- **Multi-Function LCD** - displays grease output, battery charge and alerts the operator of blocked fittings & loss of prime.

No Slip Pulley Puller & Installer

With more and more pulleys being pressed on, you need a tool that is capable of removing or installing pulleys without damage. This newly redesigned kit will remove and install pressed on power steering, alternator and air pump pulleys without slipping. The patented unique split puller body design completely houses the pulley hub and provides a gripping handle for safe removal. Set fits most domestic models including GM 3.1 and Quad 4 engines. Works on traditional V shaped pulleys and serpentine belt system pulleys. Also works faster than other conventional pulley pullers.

S90 SERIES - MANUAL CHAIN HOISTS

Black oxide coated Grade 80 load chain is induction hardened for added durability.Has industrial rated alloy steel safety hook that rotates 360 degrees for easy rigging. The Weston style double ratchet pawl brake design splits the load to opposite sides of the ratchet gear for greater load security and increased safety. Needle bearings support the load sheave to increase efficiency and promote smooth operation with low wear for longer hoist life. Complies with OSHA, ANSI/ASME B30.16 and HST-2M standards. Load tested to 125% of capacity with certificate.

58850 OIL PAN PLUG RETHREADING KIT

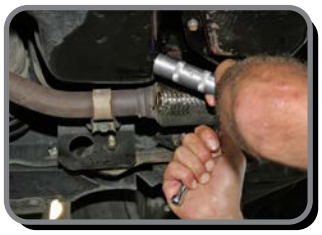

Removes Damaged Thread and Taps a New Oversize Thread.

$149.99

- This set includes a piloted drill, spring-loaded tapping tool and 5 magnetic drain plugs. First you drill out the hole. By keeping the drill rotation very slow, it prevents you from flinging shavings inside the crankcase.
- The spring-loaded sleeve around the tap keeps the tap perfectly aligned to ensure the new thread will be perpendicular to the gasket surface to prevent leakage.
- Flush out the pan with clean oil to wash out remaining shavings.
- Works on soft steel and aluminum oil pans with 1/2", 12mm & 14mm threads. Can be used on the vehicle when room permits.

Dual Fuel Generators *can run on two types of fuel offering you more flexibility, convenience and value. Combining two fuel types means you can operate these generators for a much longer period before needing to refuel. Pulsar generators have Switch & Go technology that allows you to simply turn the lever and change from liquid propane to gasoline, or gasoline to liquid propane while the generator is running.*

GAS

9 HP - 30 Gallon with Electric Start
This belt driven compressor uses a single stage, cast iron three cylinder pump. Delivers 125-155 PSI working pressure. Produce 20.6 CFM @ 40 PSI and 18.1 CFM @ 90 PSI. The 9 horsepower OHV Honda gas engine features electric start, 3 amp charging system and automatic low oil shutdown to protect engine from failure. A 30-gallon truck mountable receiver air tank provides lots of run times on air tools.

SAN # IHA9093080ES $3,145.99

13 HP - 30 Gallon with Electric Start
Features a 390cc OHV engine for increased efficiency and optimal power transfer. Easy view oil level sight glass and automatic low oil shutdown. Industrial grade performance delivers 22 CFM @ 175 psi and 24 CFM @ 100 psi, providing enough power to operate multiple tools at once. High performance two-stage pump has patented design and contruction for cooler operation. Perfect for service and field truck applications. Automotive type one-piece crankshaft for smooth, trouble free operation. Industrial grade bearings provide extended pump life.

MAXLINE® BY RAPIDAIR

Get Leak-Proof Performance with MAXLINE Industrial Semi-Flexible Compressed Air Tubing

SAFER than PVC, EASIER than Copper and CLEANER than Black Iron

MaxLine is an industrial compressed air piping system that installs in half the time of traditional methods. It is a semi flexible tubing that comes in 100ft or 300ft coils and uses compression fittings for leak proof performance. MaxLine piping is designed for efficient installation in diverse settings, from small shops and farms to large manufacturing facilities. It delivers clean compressed air, inert gas and vacuum.

Maxline Master Kits BY RAPIDAIR®

1/2" MaxLine Master Kit w/ 100 ft Roll ~ 4" to 6" Bend Radius

Kit includes: (100') roll of 1/2" MaxLINE tubing with a bend radius of 4"- 6", (1) T-connector fitting, (5) 90° Elbow fittings, (6) Straight connector fittings -1/4" NPTM, (1) Straight connector fitting -1/2" NPTM, (1) Machined aluminum compressor block, (4) brass plugs, (3) Machined aluminum single port outlet blocks w/ water drain valve, (1) Tubing cutter, (1) Deburr tool.

3-Layer Semi Flexible Tubing

This multi-layer tubing has an inner and outer layer of high-density polyethylene (HDPE) and uses a center aluminum core to maintain any hand-bent radius shape.
With no special installation tools required, you can easily assemble, disassemble, and modify your system at any time. With MAXLINE products, you'll save 30-50% on stallation time and labor costs vs traditional piping, like copper or black iron.

ADVANTAGES:
- Long tubing rolls allow for fewer joints
- Compression fittings reduce labor
- Bury underground or underneath concrete
- Perfect to add/modify/change distribution system anytime, even after original installation

TECHNICAL SPECS:
- Working Pressure: 200psi @ 73°F | 160 psi @ 140°F
- Temperature Range: -40°F to 140°F
- Compatible with common compressor oils
- Handles: Compressed air, vacuum and inert gas applications such Argon and CO2
- Can be direct buried
- ASTM F1282, ASTM F1974 and OSHA compliant

WHEN YOU HAVE REAL WORK TO DO..

GRAB HOLD OF AN AIRCAT

VIBROTHERM by AIRCAT DRIVE™

New patented mechanism provides faster blow frequency, high torque, low vibration and a longer working life than other conventional impact wrench mechanisms.

In addition it reduces overall tool length. The motor drives the two hammers to generate two blows for each revolution. The hammer pins are eliminated and the addition of the front hammer cage plate to retain the grease within the mechanism. This reduces wear within the mechanism, increasing working life.

THIN-WALL WHEEL LUG NUT IMPACT SOCKET SETS

These thin wall impact rated socket is specifically designed for wheel applications. Reduced wall thickness improves access to fasteners in restricted areas and can be used with a torque wrench for precise torquing of lug nuts. Hollow design allows room for removing longer lug nuts styles. Some sets features an outer nylon cover to protector the wheel and inner nylon insert to protect the lug nuts.

Thin-Wall Sockets with Nylon Protectors are Perfect for OE and Custom Chrome Wheels

TRU-FLATE™

Deluxe Inflator w/ Digital Gauge

- Highly accurate digital gauge is calibrated from 0 to 200 psi and has a heavy rubber cushion to protect the gauge during the toughest shop use.
- Powered by two 1.5 volt batteries.
- Features heavy chrome plated castings and durable Hybrid hose.
- Tapered chuck and swivel dual foot make getting into tight spots easy.
- Includes: push button air bleeder valve, 13.5" hybrid hose

Premium Reinforced HYBRID Air Hoses

Advanced Hybrid Hose features the Strength of reinforced PVC with the Superior Flexibility of Rubber!

- Standard air hose can kink, curl and require extra effort. Hybrid air hose is a specialized lightweight blend of rubber and PVC making the hose extremely flexible and kink resistant, even under pressure.
- Features a superior bend radius and has zero memory so it lies flat and/or coils up effortlessly after use. (1/4" NPT, 300 PSI)
