TWO-STAGE ELECTRIC COMPRESSORS

- *Patented Cast Iron Pumps & Flywheels*
- *Patented Asymmetrical Deep Groove Cooling Fins*
- *Oversized Industrial Bearings*
- *4 Rings per Piston*
- *AMSE Certified Tank*
- *2-Year Factory Warranty*

Engineered for commercial or industrial applications. Features thermally stable fully cast iron pumps with four rings per piston and hardened steel spring-loaded disc valves for maximum performance. Pumps use oversized tapered roller bearings and is shipped with synthetic blend non-detergent oil for optimum performance and long life. Featuring ASME rated stationary air tanks with manual drain, tank pressure gauge, clear easy-to-read oil sight glass and uniquely designed metal belt guard to improve compressor pump cooling.

AIR WAND - attaches to a common air compressor to blow away dirt and debris in those hard-to-reach places.

WATER WAND - attaches to your garden hose and has an adjustable pressure knob that will allow you to spray up to 40 feet on household pressure alone. Overall Length: 22-3/4"

Gasoline Air Compressors

13 HP ~ 30 Gallon with Electric Start

SAN # IH1393075

Features a 390cc OHV engine for increased efficiency and optimal power transfer. Easy view oil level sight glass and automatic low oil shutdown. Industrial grade performance delivers 22 CFM @ 175 psi and 24 CFM @ 100 psi, providing enough power to operate multiple tools at once. High performance two-stage pump has patented design and contruction for cooler operation. Perfect for service and field truck applications. Automotive type one-piece crankshaft for smooth, trouble free operation. Industrial grade bearings provide extended pump life.

MAXLINE® BY RAPIDAIR

THIS ISN'T A PIPE DREAM!

RapidAir is the Leader in Affordable Compressed Air Piping System

- Safer than PVC
- Cleaner than Black Iron Pipe
- Easier than Copper

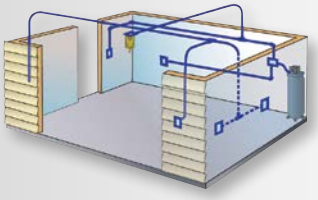

EASY TO INSTALL!

Air tubing is available in 100 & 300ft lengths, which allows for fewer joints and less leakage. With no special installation tools required, you can easily assemble, disassemble, and re-modify your system at any time.

Fast Installation! With RapidAir blue pipe products, you'll save 30-50% on installation time and labor costs versus traditional products, like copper or black iron. You can run 300 feet of piping by yourself in an afternoon—and it's easy!

GET LEAK-PROOF PERFORMANCE WITH MAXLINE INDUSTRIAL SEMI-FLEXIBLE COMPRESSED AIR TUBING

MaxLine is an industrial compressed air piping system that installs in half the time of traditional methods. It is a semi flexible tubing that comes in 100ft or 300ft coils and uses compression fittings for leak proof performance. MaxLine piping is designed for efficient installation in diverse settings, from small shops and farms to large manufacturing facilities. It delivers clean compressed air, inert gas and vacuum.

Efficient Flowing Smooth Interior Wall Tubing Will Not Become Brittle or Lose Strength

DIGITAL COMPRESSION TESTERS

Performing a complete engine compression test without having to record or memorize the peak values for each cylinder (stores up to 12 cylinders).

TESTER FEATURES:

- **Exceptional Accuracy** - of the electronics and clarity of a large backlit LCD screen.
- **Large, Backlit LCD** - is easy to read in light or dark environments or from any angle.
- **Displays Compression Values** - in PSI, Bar or kPa units of measure at the touch of a button.
- **Displays Current Pressure** - plus the maximum compression value for the indicated cylinder.
- **Push-Button Pressure Relief Valve** - allows multiple tests without disconnecting.
- **Operates** - on standard 9V battery and automatically shuts-off after 3 minutes of non-use (memory is retained).
- **Sealed** - gauge face and buttons to protect the electronics.
- **Kit Includes** - custom molded case with manual printed in English/French/Spanish/German.

Gasoline Engine Compression Test Kit ..... **LSL # MV5532** **$194.99**

Pocket-Sized Spark Indicator

Test spark plugs, spark plug wires and coils without puncturing the wire. With the engine running, place the grooved/notched end of the tool over the wire and the internal bulb inside the tool will flash to indicate spark.

20700 COIL-ON-PLUG SPARK TESTER

Provides an Easy Way to Check Ignition Systems with Coil-On Plugs.

Coil-on plug ignitions do not have plug wires, so you've probably been wondering how to instantly test and diagnose a 'no-start' condition without expensive tools. This tester has a round red knob to adjust the gap from 0 to 40k to see how strong your spark magnitude is, and what color... it is easy to see against black background.
Features an easy-to-read white lettered scale and 12" ground wire with shielded alligator clip. The standard plug wire tip and can be unscrewed so the tester can be used on small engines and some motorcycles.

$22.99

20580 INLINE SPARK TESTER W/ COIL-ON-PLUG WIRE

Gives a Visual Check of Spark Energy for Coil On Plug or Standard Ignition Systems.

There has always been a shock hazard, and it's only gotten worse with the high-voltage ignitions. Simply connect the clear double-ended tool to the existing plug wire. Then use the included plug wire (with a straight or 90° boot) to attach the other end of the tester. With the engine running, the tool has a clear housing with a light-bulb inside that flashes a mirror image of the ignition spark. The additional 7" extension plug wire is used on coil on plugs that are recessed.

INTRODUCING THE ALL NEW NAVIGATOR

PELLET GRILL SERIES

For years, Pit Boss has been a leader in wood pellet grills and smokers, offering innovative features and premium design. This revamped line combines the most premium features with smart controls to perfect any outdoor cooking experience with ease.

Features such as folding front, and solid side shelves provide all the extra space you need. Tall tapered legs, and ergonomic stance is easy on the back. Also, for making life easier is an improved hopper pellet cleanout. Now positioned underneath, gravity will do most of the work. Ash cleanout is easy with the removable undermount burn pot.

With the Rapid Igniter, you can grill faster than ever before. Controlled by the latest Pit Boss digital board, you now have precise 5° degree incremental temperature adjustments. Wi-Fi® and Bluetooth® technology enables full remote control anywhere while using the Pit Boss Grills app.
