
FRN # 555

4 GAL. OIL-FREE AIR COMPRESSOR ~ 2.0 HP

This electric air compressor is designed and built to ensure maximum efficiency and performance of plasma cutting equipment, powering construction tools and general inflating / cleaning around the house.

- Low amperage draw, 100% duty cycle, & quick recovery time.
- The front mounted control panel with dual 1/4" universal quick connect couplers, air pressure regulator with large knob and easy to read pressure gauges.
- Auto on/off option automatically refills the air compressor when the tank pressure drops below a certain limit.
- Complete with on-board moister separator for filtering out impurities and condensation.

HORSE POWER: ..... 2 HP
TANK SIZE / MATERIAL: .....4 Gal. / Steel
AIR DELIVERY @ 40 PSI: ..... 5.5 CFM
AIR DELIVERY @ 90 PSI: ..... 4.5 CFM
PUMP-UP TIME (0-MAX PSI): .... 60 Seconds
RECOVERY TIME (85-115 PSI): .. 15 Seconds
PUMP TYPE:..... Oil-free
MAXIMUM PRESSURE:.....120 PSI
MAX AMP DRAW: .....13.7 Amps
